

# NAVI

## MEET NAVI: YOUR AI CARE INTELLIGENCE ASSISTANT

The future of healthcare execution, powered by AI.

### WHAT NAVI CAN DO FOR YOU

#### ABOUT NAVI

NAVI is a **conversational AI platform** built for value-based care.

It brings together **HCC risk coding, care gaps, utilization and empanelment data** into a single real-time experience – so care teams can act instantly at the point of care.

#### CONVERSATIONAL ASSISTANT

NAVI acts like a **real-time analyst you can talk to**. Ask simple questions like: “What does this patient need today?”

And instantly get a complete, actionable answer – No searching required.

#### ROI THROUGH EFFICIENCY

Apply GenAI where it matters most – **workflow execution**:

- Reduce pre-visit prep from **hours to seconds**
- Eliminate manual cross-checking across systems
- Improve consistency across providers
- Increase HCC capture and care gap closure

Secure, HIPAA-compliant AI partner with **no heavy IT lift**.

#### Get answers, not reports

Ask NAVI a question and instantly see care gaps, HCCs coding opportunities, and patient priorities.

#### HCCs & Risk Coding

Surface accurate coding opportunities with full clinical context – right during the visit.

#### Utilization & Risk Insight

Identify high-risk patients using RAF, ER visits, and admissions – without digging through reports.

#### Empanelment & Attribution Visibility

Know exactly which patients are yours, who is active, and where opportunities exist across your panel.

#### Actionable Patient Summary

Spend less time in the chart and get a **clear, “need to know” summary** that drives action.

#### WHAT CUSTOMERS ARE SAYING

“What used to take our team hours before the visit now takes seconds with NAVI.”

“For the first time, our provider actually use the data because it’s simple, fast and in the workflow.”
